Additional Suggested Agenda Items for the Special Group Meeting
November 9th

General Taylor,

The following points should, I think, be brought up at the Special Group meeting. I don't think that we should include them in the formal agenda that is circulated ahead of time, however, since they are either relatively trivial or will raise unnecessary questions in the minds of the recipients - or more likely their indians:

6. Berlin Report

General Cabell will have reports for this week, to be distributed. He will probably ask whether the Group feels it necessary to continue with them. I personally would hope we could do away with this requirement.
